FOR IMMEDIATE RELEASE

Sumaria Systems and Teksouth Corporation Comprehensive Cyber Security (CCS) Practice Participate in FOSE 2010

WASHINGTON, D.C. – March 22, 2010 – Sumaria Systems, Inc., provider of Information Technology, Engineering and Professional services to Department of Defense (DoD) and government clients; and Teksouth Corporation, a Performance Management, Business Intelligence and Decision Support, Custom Application Development and IT Professional Services firm; will be participating at FOSE 2010.

FOSE 2010, "Technology Solutions for the Business of Government," will take place in Washington, D.C., at the Walter E. Washington Convention Center from March 23-25, and is the largest and most comprehensive IT expo, education, and conference event of the year for Federal technology professionals.

The Sumaria/Teksouth CCS Practice will be exhibiting its unique approach to managing all Cyber Security aspects within a continuous and connected *Cyber Lifecycle* composed of seven (7) elements that can be applied individually or be used together for enterprise Cyber Security management and oversight.

For more information on the Sumaria/Teksouth CCS Practice and its Practice Capabilities, please visit Booth 1131 at FOSE or go to our website at <http://www.cyber-ccs.com>.

About Sumaria Systems, Inc.

Sumaria Systems, Inc. is a CMMI® Level III assessed, ISO 9001:2000 certified, and ISO 8000-110:2008 Master Data Quality Management certified Information Technology, Engineering and Professional services and solutions company headquartered in Danvers, Mass. Since its inception in 1982, Sumaria has provided a wide variety of IT and Professional services to the U.S. Department of Defense (DoD) and additional government agencies. Sumaria's geographic network of offices provides a full-range of services and local capabilities to our clients, including value-added software engineering, systems integration, and network solutions that enhance client productivity and support client cost savings through technological efficiencies and service outsourcing.
